**Sponsored by: Chair Morrison, Chair Gosey, Representative Mack**

1 **WHEREAS**, the hateful and racist rhetoric used by Donald Trump to garner support for the proposed US-  
2 Mexico border wall correlates with a significant rise in reported hate crimes against several marginalized  
3 groups, including but not limited to the Latinx, Black, Muslim, Indigenous, and Jewish communities.  
4

5 **WHEREAS**, the proposed US-Mexico border wall will decrease the migration of the more than seventy

7 production and supply<sup>8</sup>.  
8

9 **WHEREAS, Granite Construction, Tetra Tech, Sundt** <sup>9</sup>, and **Elbit Systems**<sup>10</sup>  
10 have built previous segments of the border wall between the US and Mexico through Indigenous lands.

24

25 **WHEREAS**, this includes the construction of the Dakota Access Pipeline by **Energy Transfer**  
26 **Partners** which is destroying sacred burial sites of the Sioux Nation and putting at risk the sacred, life-  
27 giving waters of the Missouri River.  
28

29 **WHEREAS**, this includes Canadian **Aquila Resources** which is planning to build an open-pit mine in

2 **US-Bank and Wells Fargo** have engaged in discriminatory lending practices that contribute to evictions,  
3 housing insecurity, and wealth inequality in low-income and minority communities, and **JPMorgan-**  
4 **Chase** has engaged in discriminatory promotion practices  
5

6 **WHEREAS**, these private prison corporations “depend on the debt financing in the form of credit, loans,  
7 and bonds to conduct their day-to-day business and acquire smaller companies.” These smaller companies  
8 include those that provide residential re-entry and electronic monitoring services, that will enable GEO  
9 Group and CoreCivic to continue to benefit from the latest profit-maximizing moves in mass  
10 incarceration: house arrest.  
11

12 **WHEREAS, Bank of America, JP Morgan Chase, BNP Paribas, Suntrust, US Bank Corp, Wells**  
13 **Fargo and Deutsche Bank** all have been shown to play a major role in the financing of these private  
14 prison companies and thus are responsible for the enabling mass incarceration and the criminalization of  
15 immigration.  
16

17 **WHEREAS, Lockheed Martin, Raytheon, General Dynamics, and Northrop Grumman, Honeywell,**  
18 **Textron, Huntington Ingalls, L-3 Communications, United Technologies Corporations, General**  
19 **Dynamics, and Boeing**, which represent some of the largest arms manufacturers in the United  
20 States, profit from the destruction of Black, Brown, and Indigenous Lives. This includes, but is not  
21 limited to, those lives in Palestine who continue to suffer under Israeli military occupation supported by a  
22 United States \$38 billion dollar military aid package which is used to purchase equipment from these  
23 arms manufacturers. It includes lives in Egypt, Syria, Yemen, and Latin America who suffer from  
24 violence enabled by these arms manufacturers.  
25

26 **WHEREAS**, the US Department of Defense’s 1033 Program, which allows the transfer of military  
27 equipment to civilian law enforcement agencies, has caused “American policing to become unnecessarily  
28 and dangerously militarized.” Moreover, these military arsenals are used to perpetuate a War on Drugs  
29 that destroys Black and Brown communities through mass incarceration and extrajudicial police killings.  
30

31 **WHEREAS**, Israeli police and military train US police departments and Immigration and Customs  
32 Enforcement agents in military police control tactics in response to civilian protests. These tactics have  
33 actively contributed to the militarization of police forces and the subsequent extrajudicial killings of  
34 Black and Brown bodies at the hands of these police forces.
